NGUYEN MINH NHAT

JUNIOR FULLSTACK DEVELOPER

ABOUT ME

I am a recent graduate with a desire to become a Full Stack Web Developer. I have successfully completed a program in Information Technology and have acquired fundamental knowledge of web programming. I am currently seeking opportunities to kickstart my career in this field and I am eager to learn and develop my skills in a real-world work environment.

PROJECTS

CHANH'S BLOG - BLOG.NHATNGUYEN.CLICK

04/2023 - 06/2023

- Demo: https://youtu.be/Hg0DhgFDgFg
- Github: https://github.com/nhatnguyen7602/chanh-blog-fullstack.git
- Responsibilities: Developer
- Technology in use
  - Frontend: ReactJS, Redux, Axios, Ant Design, CKEditor, ...
  - Backend: NestJS, JWT, Prisma, MySQL, ...
  - Deployment: Docker (VPS)
- Descriptions
  - A website that allows users to create an account, log in, and write articles. Additionally, the website supports search functionality, interaction, and commenting on articles, along with CRUD operations to manage the content of articles and account information.
